

Since 1987, Vical Inc. has been focused on research and development of biopharmaceutical products based on our patented DNA delivery technologies for the prevention and treatment of serious or life-threatening diseases. In addition, we have gained access to enhancing technologies through licensing and collaborative agreements.

We are seeking a **SAS Programmer, Biostatistics** (Job Code # 200803) to join our Clinical Research department. This position will be responsible for performing data cleaning, integration, derivation, and analysis of clinical trial data, generate tables, data listings and figures for clinical study reports and publication. Must be able to verify SAS programs written by other SAS programmers, review and contribute to the revisions of case report forms (CRFs) design as indicated by the protocol & protocol amendments, data management plans and transfers. Candidate will be able to review protocols, Investigator's Drug Brochures, and Clinical Study Reports, as needed for impact on the accuracy of data summary presentation.

Qualified candidates will have previous knowledge of medical and pharmaceutical industry, terminology, practices and ability to digest; apply new knowledge regarding disease entities and pharmaceutical development as related to specific clinical trials. Candidates will have excellent oral and written communication skills, be able to work independently, identify problems and offer solutions, multi-task and meet project deadlines. Applicant must be a team-player and be able to work in a fast-paced environment. Strong computer applications skills including basic Microsoft Office is required. Bachelor or Master degree in Scientific Discipline with 5-8 years of Clinical Research experience in Pharmaceutical/Biotech organizations or CRO.

To apply, please reference the job code in your cover letter and submit with your CV to Human Resources at [hr@vical.com](mailto:hr@vical.com) or fax to 858-646-1154. Further information about Vical Inc. can be found at [www.vical.com](http://www.vical.com).
